

# CASTLE WALLS

by Donna Whitlock

---

Remove bricks from the top of the wall to match the clues. This gives a stream of Lego bricks of colors red, orange, yellow, green, blue and black.

The bricks can be treated as a 5-bit binary encoding where a black is a character separator and a bit is on if its color is present in a particular segment (bit order is ROYGB with R as the high bit).

1	Silver	Red	10100 - T	16	Blue	Orange	01100 - L
2	Mickey	Yellow		17	Basalt	Yellow	
3	Outlive	Black		18	Peach	Black	
4	Iron	Orange	01000 - H	19	Purple	Orange	01100 - L
5	Lemon	Black		20	dam	Yellow	
6	Meet	Yellow	00101 - E	21	Gent	Black	
7	Dwarf	Blue		22	Hisses	Green	00010 - B
8	Blossom	Black		23	Charm	Black	
9	Pares	Red	10111 - W	24	entomb	Blue	00001 - A
10	Jackass	Yellow		25	horde	Black	
11	Calico	Green		26	wedgie	Orange	01110 - N
12	Serial	Blue		27	yam	Yellow	
13	Prepay	Black		28	permute	Green	
14	Granite	Blue	00001 - A	29	wand	Black	
15	Punk	Black		30	couple	Yellow	00100 - D

This gives the message THEWALLBAND for the answer PINK FLOYD.
