

# THE WIZARD'S LOCK

by Donna Whitlock, Jeff Phillips and Jett Jones

Your majesty – I have designed a very special lock to ensure that your most precious treasure never falls into the hands of those thieving Vikings.

You can easily determine the combination using the secret words that you know are associated with each of your treasures that are locked in the other chests. Those uncivilized Vikings don't even know what your other treasures look like, so they'll never figure out how to open this lock!
